2 What You're About To Set Up

You're installing **Level 1** of our Instagram recruiting system:

- One simple ad
- An auto-DM flow that replies for you
- A calendar link so recruits book straight onto your schedule

No content creation. No daily posting. Just **ads + DMs + calls**.

If you like it and want **Levels 2 and 3** done for you (live setters in the DMs, content engine, and full install), there's a link at the end.

3

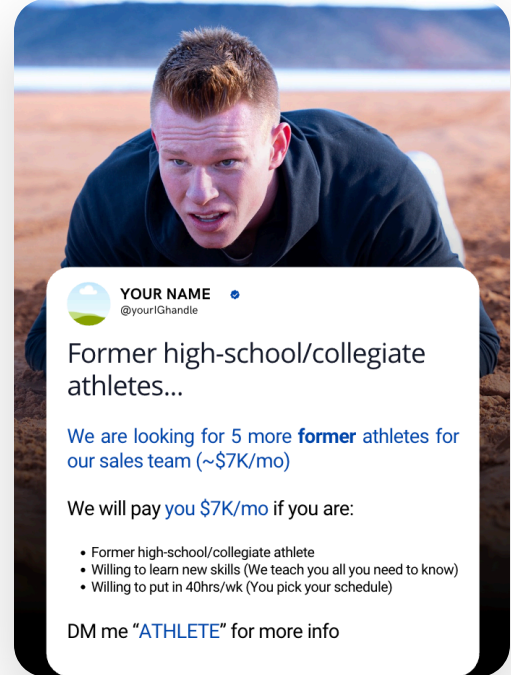

Step 1 — Turn On The Ad 15–20 min

1 Get the ad

Download the proven creative, duplicate it in Canva, and swap in your name, handle & offer.

 <https://canva.link/do47j7ixjc41f7x>

When you upload it, set the campaign **Objective** to **Messages** — that's what routes replies into your DMs.

2 Switch your Instagram to a business account

- Open Instagram app → Settings → Account → **"Switch to professional account."**
- Choose **"Business"** and follow the prompts.

3 Connect a payment method

- On desktop, go to [instagram.com](https://www.instagram.com) and log in.
- Go to "Ad tools" or "Professional dashboard" → add your card.

4 Create the ad & set your audience

- Click "Create ad" → upload the image → paste your ad text into the primary text field.

Location	add the states / cities you target
Age	add your age range
Interests	add 2-3 e.g. "sales," "commission," "door-to-door"

5 Set your budget

- Start at **\$10/day**. Schedule: start today, no end date.

Success targets

\$3-5

cost per DM

\$20-30

cost per booked call

If it's higher, lower the budget for a few days and test a slightly different audience or hook.

1 Create a ManyChat account

- Go to manychat.com → "Get started" → choose **Instagram** → connect the same account you used for the ad.

2 Import the prebuilt flow

- Click this link: [🔗 Open the prebuilt ManyChat flow](#)
- In ManyChat, click "Use this template" / "Import" to add it to your workspace.

3 Customize 3 things only

- Replace **[YOUR NAME]** with yours.
- Replace **[YOUR COMPANY]** where referenced.
- The final message that drops your calendar link (you'll add that next).

4 Turn it on

- Set the trigger to "Instagram DM with keyword" (e.g. **"APPLY"** or **"INTERVIEW"**).
- Make sure your ad says: *"DM 'APPLY' if you want details."*
- Toggle the automation to **Active**.

💡 **Keep it short & human.** One or two lines, then the question, then the calendar link. Long scripted DMs tank reply rates — you want it to read like you actually typed it.

Use Google Calendar's booking page or Calendly. Here's the Google route:

1 Go to calendar.google.com

2 Left sidebar → "Create" → "Appointment schedule"

3 Title it:

- "Sales Interview – [YOUR NAME / COMPANY]"

4 Set availability

- Pick the days/times you'll actually take calls (e.g. Mon–Thu, 2–6 PM).
- Cap max calls per day to avoid burnout.

5 Description (copy & tweak):

"Super excited to meet you and see if we're a fit for this sales opportunity. I'll **CALL you** at the time you pick — make sure your phone is on and you're in a quiet place. Need to reschedule? Please do it at least 2 hours before the call."

6 Save & copy your booking link

7 Back in ManyChat:

- Find the final message that tells them to book → paste your booking link → **publish** the flow.

6

Your 7-Day Launch Plan

DAY 1 Launch

- Turn on the ad
- Turn on the ManyChat flow
- Add your calendar link & test it by DMing yourself the keyword

DAYS 2-7 Run it

~10-15 minutes per day:

- Reply to any edge-case DMs ManyChat can't handle
- Check your calendar
- Take the calls

Even if we never work together, you'll leave with this system fully installed — or a clear plan to tweak it until it prints calls.
